EDUCATION

University of Connecticut, Storrs, CT

Bachelor of Science in Computer Engineering

Expected Graduation: August 2026

GPA: 3.2

PROJECTS

Automated Hydroponic System — *Senior Design Project*

- Designed an automated hydroponic nutrient delivery and monitoring system to regulate pH, EC, and temperature, humidity, and light conditions
- Integrated environmental sensors with a microcontroller to collect real-time system data
- Implemented closed-loop control logic to maintain stable growing conditions with minimal manual input
- Collaborated on system design, testing, and technical documentation

Optical Audio Transmission Circuit — *Course Project*

- Built an analog circuit on a breadboard to transmit audio signals using a laser diode and photoresistor
 - Converted computer audio output into a modulated light signal for optical transmission
 - Designed a receiver circuit using a photoresistor to convert light back into an electrical audio signal
 - Debugged signal noise and alignment issues to achieve audible sound output through a speaker
-

TECHNICAL SKILLS

Programming: Python, C , C++, VHDL

Tools & Platforms: Git, GitHub, Revit, LTspice, Open Roads Designer, MicroStation, AutoCAD, Cadence

Hardware & Systems: Embedded systems, sensor integration, microcontrollers, analog/digital circuits

Other: Microsoft Word, Excel, Google Workspace, Bluebeam, LaTeX

EXPERIENCE

SAND-MAN — Fairfield, CT

Beach Cleaner | July 2025 – Current (*Seasonal*)

- Maintained strong work ethic and reliability by consistently arriving early to prepare for beach cleanup operations
- Ensured quality results through attention to detail, consistently exceeding client expectations
- Built client satisfaction and loyalty through reliable, professional service

A. DiCesare Associates, P.C. — Bridgeport, CT

Engineering Intern | June 2019 – January 2025 (*Seasonal*)

- Digitized bridge inspection reports using CAD tools, improving accessibility and accuracy
- Edited and revised engineering inspection documentation for clarity and compliance
- Assisted engineers with technical and administrative tasks supporting infrastructure projects
- Gained exposure to professional engineering workflows and documentation standards

Sturges Ridge — Fairfield, CT

Waiter / Server | August 2021 – November 2022

- Provided accurate service while maintaining dining area cleanliness and safety standards
- Developed strong communication and teamwork skills through daily staff coordination
